

Pulsawork

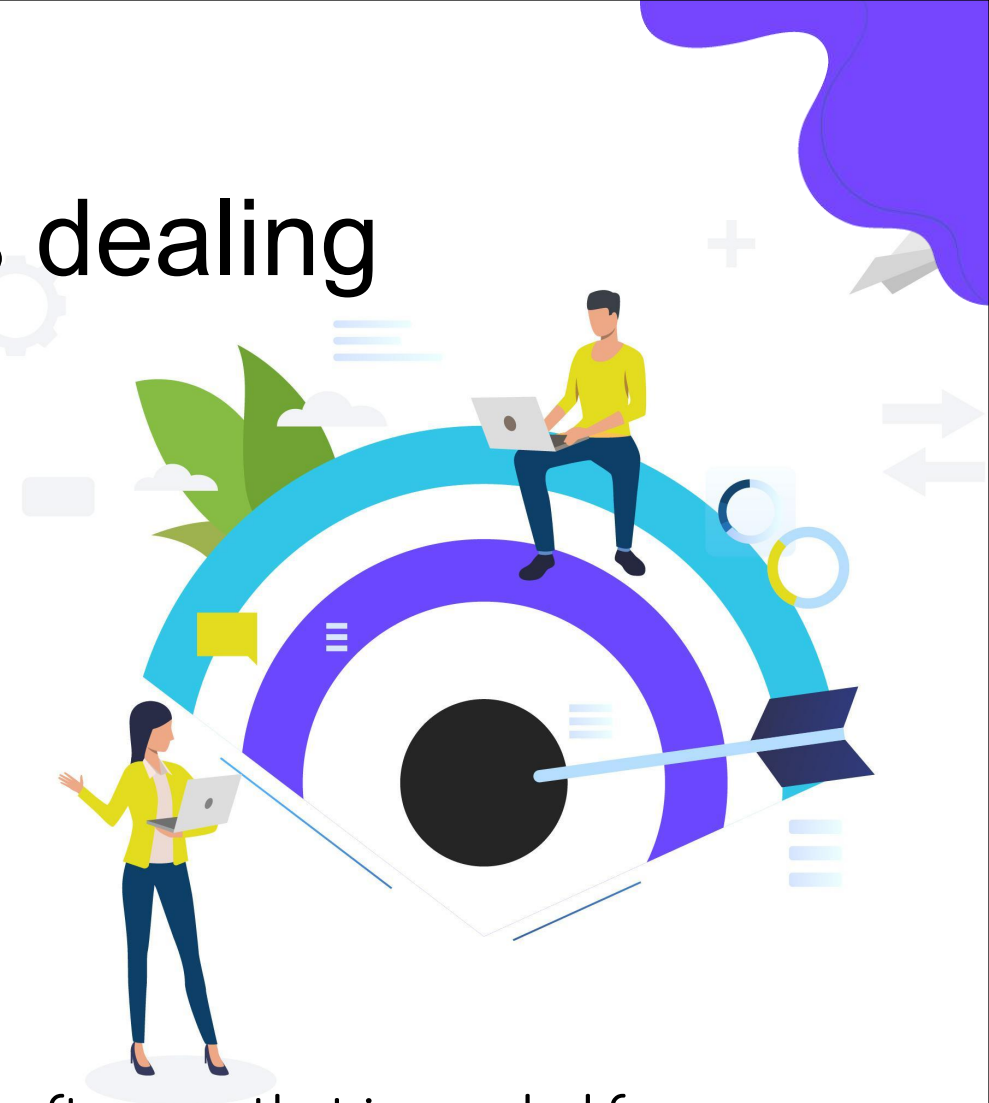

Product Presentation

Pulsawork is an end-to-end solution for workforce management.

What are companies dealing with today?

- Demanding administration of HR processes
- The need to accelerate and improve process efficiency
- Inefficient monitoring of system changes
- Cost-revenue reporting
- Artificial intelligence and automation
- Insufficient information—often dispersed across various software—that is needed for decision-making

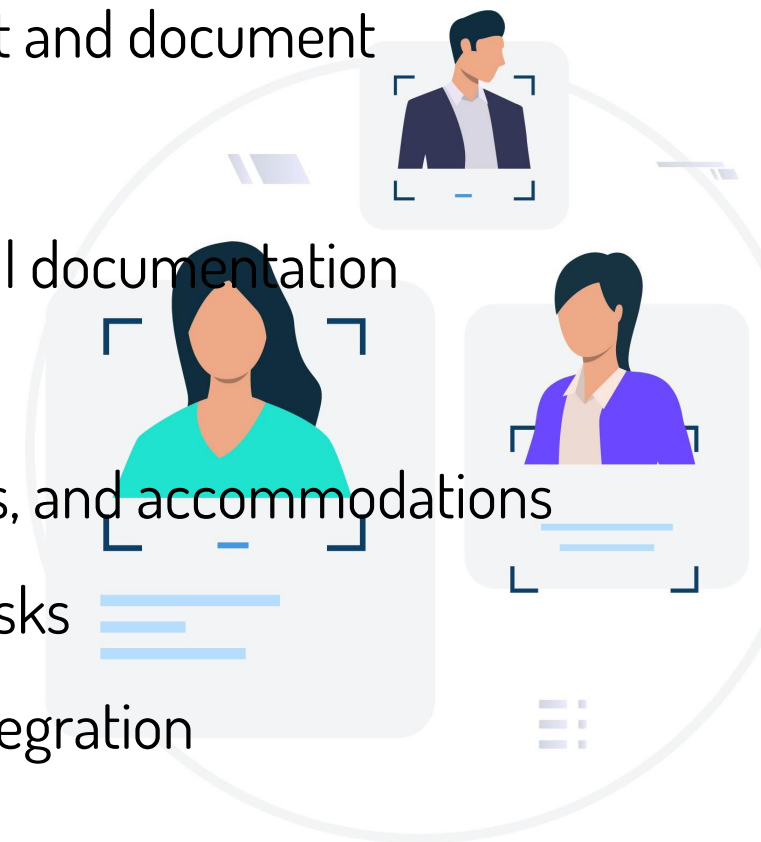

How does Pulsawork help?

- Efficient administration of HR processes
- Accelerated and more efficient processes
- Effective monitoring of system changes
- Cost-revenue reporting
- Artificial intelligence and automation
- Key information needed for decision-making all under one roof

Main Features of Pulsawork
